

Christmas made easy with Flora-tec 2026

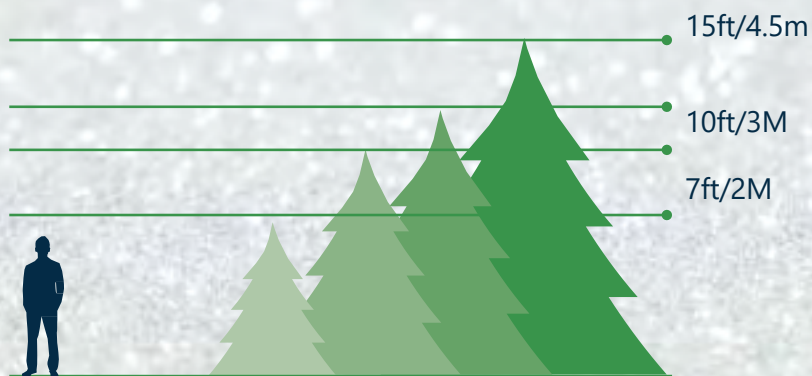

Christmas hire made easy

Here at Flora-tec, we can make installing a Christmas tree in your premises an easy and worry-free process for you.

There is no need to think about how to decorate a tree or where to store it as we can do all that for you. Our in-house design team have curated a range of trees to suit all environments and we can even offer a bespoke design service – within reason – we cannot provide you with a real Reindeer!

We will install your selected displays and then at the end of the Christmas period remove the displays for you, allowing you to have a hassle free festive period.

SIZES available in both replica and real

Since July 2023 we are proud to be an officially certified Carbon Neutral Business by Carbon Neutral Britain and we take that very seriously.

We are committed to reducing our impact on the environment. As well as being a Carbon Neutral business we are also ISO14001 accredited, confirming our commitment to environmentally friendly practices and processes.

Our Christmas service plays a key role in this, from procuring real trees from a sustainable source, replanting a new tree for every real tree sold, recycling our green waste, refurbishing our replica trees for reuse, using more environmentally friendly materials in our decorations and using effective geographical planning for our installations and uplifts to minimise the environmental impact.

Winter Services

As well as supplying you with your festive displays, Flora-tec can also help you navigate the challenges of ensuring your workplace is free from the hazards of slips, trips and sliding that comes with the cold and frosty Winter season.

Advanced forecasting data on both weather and surface temperatures means we can ensure our Winter gritting services allow you to be ready ahead of time on our pro-active service, ensuring you are not only compliant and operational but that your colleagues are safe as well.

For more information reach us on 0845 345 7494 and ask our Helpdesk for Winter gritting services or email: info@flora-tec.co.uk
